HW: We were going to mark up this lovely piece on Julie for you and decided just to let you discover its hidden joys for yourself. Frances Lewine covered both Jackie and Lady Bird, and one can only imagine what a drag she finds Pretty Pat to be and how she must regard Mme. Eisenhower and the Tinsel Princess. In any case, Frances is no slouch when it comes to helping an ambitious little twerp like Julie show herself up with her own words. This is just in case the two Posts you see didn't use.
